

ETL 208 Series

Mobile Refuse Cart Lifter

The **ETL 208 Series** is the newest line of cart tipplers from **Bayne Premium Lift Systems** to lift and dump European style carts. The ETL 208 safely holds and secures the European style container using a finger support bar and an automatically engaging clamp bar. The patent-pending design of the ETL 208 series incorporates a sweeping action that automatically adjusts for uneven terrain, preventing operators from having to lift carts onto lifter faceplate. This lifter was specifically designed to offer greater ground clearance for rear load applications. The ETL 208 series is thin enough to work in conjunction with commercial container latch kits, thus allowing one truck to pick up both residential and commercial waste on the same route.

- Powered by the patented Thinline® rack and pinion rotary actuator for smooth operation
- Compatible with standard European style carts
- Over 20" of ground clearance reduces the risk of damaging the lifter on uneven terrain
- Sweeping motion for increased cart pick-up envelope
- Will not interfere with packer blade on most truck applications when properly mounted
- Dumps cart higher and deeper inside the hopper opening to prevent spillage and increase route stops before cycling packer blade
- Compact design works in conjunction with most commercial container lift bars
- Powder-coated finish for durability
- 2-Year Limited Warranty

Precision, Quality and...Patented Engineering!

ETL 208 Series

Specifications and Dimensions

Cart Compatibility	ANSI Z245.60-2008 Type C Containers (European Style Carts)
Lift Capacity	400 lbs @ 1800 psi
Hydraulic Pressures	Maximum Pressure – 3000 psi
Hydraulic Flow	2.0 – 2.5 gpm
Cycle Time	8 – 10 seconds
Bearings	Self-Lubricating Composite Material
Actuator	Patented Thinline® Rack and Pinion Rotary Actuator
Finish	Safety Yellow Powder Coating
Options	<ul style="list-style-type: none"> • Tap-In-Kit • Mounting Plate Kit for Bolt-On Application • Commercial Container Bumper Kit
