

Food Service Solutions

Commercial and Industrial Lifters for Food Service Applications

LIFTING ERGONOMICS TO NEW HEIGHTS

Premium Lift Systems

A DOVER COMPANY

Innovative. Economical. Efficient.

Bayne has been in business for more than 40 years and is proud of our reputation as a leader in the solid waste industry. We design, manufacture, and assemble our proven lines of hydraulic cart lifters in our state-of-the-art facility in Greenville, SC. This enables Bayne to maintain complete control over the production process, ensuring that you receive a high-quality, reliable product each and every time.

Bayne's Food Service Series Lifters are specifically designed for the food service industry and are the ideal lifting solution for cafeterias, restaurants, supermarkets, bakeries, commercial kitchens, and more. Sized to fit typical waste containers, these lifters make short work of waste disposal. They are equipped with a chute to prevent spillage, can be fixed or movable, and include fork pockets for easy transport.

Enhance worker safety and minimize back injuries with Bayne's Food Service Series Lifters. •••
